Property Description:

Feeling like a country road but just a 6 minute drive to the malecon, this home has 360 views of the City, Ocean and Mountains from its mountain top location. It's organic in its architecture and sits on 800 meters of meandering garden space all opening to spectacular views. The house is completely round and open creating a beautiful light source from its center opaque cupola that nurtures the dramatic indoor garden at the entry level. The 2 bedrooms in the main house are augmented by a LARGE PRIVATE Apartment with its own entrance that could be two additional bedrooms and baths. This is truly a special property that needs some love, an amazing opportunity for lovers of nature and architecture also very good potential for development.
